OSTRAKA SYSTEM BLUEPRINT

Character Building, Skill Tracks & Resource Engine Architecture

Architectural Core: This specification unifies character creation, attribute scaling (1-12 scale), derived world interaction pools, dual 10-AP in-combat action pools, and the 4-track skill/power architecture per stat (Sparkborn Power, Null Discipline, Mundane Offense, Mundane Defense). All mechanics resolve through deterministic contested d20 rolls, Clash Tactics, and loadout encumbrance thresholds.

1. Character Creation & Lineage Taxonomy Funnel (~60 Points)

Character stats operate on a **1 to 12 scale** (3-4 baseline, 5-6 skilled, 7-8 elite, 9-10 master, 11-12 legendary). Character creation uses a strict **60-point ceiling** across all 12 attributes through a 2-phase draft:

Creation Phase	Point Allocation	Mechanic & Rules Summary
Phase 1: Lineage Taxonomy Draft	54 Base Points	Draft unique numbers {2,3,4,5,6,7} across 6 Body stats (27 pts) and 6 Mind stats (27 pts) via Lineage Type, Subtype, and Sub-subtype choices.
Phase 2: Specialization & Backgrounds	+6 Final Points	Specialization choice (+2 to primary stat), Offense & Defense track picks (+1 each to associated stats), Childhood Background (+1), and Current Background Trait (+1).

2. The 12 Attributes, Cosmic Schools, Damage Types & Gear

Every attribute anchors a Cosmic Power School, a specific Damage Type, and signature combat loadouts (Armor, Melee, Ranged):

Attribute	Cosmic School	Damage Type	Armor Class (Defense)	Melee Weapon (Offense)	Ranged Weapon (Offense)
Might	Mass	Force	Band / Scale / Ringmail	Heavy Bludgeons	Heavy Crossbows
Endurance	Ordo	Cold	Plate Armor	Shields & Polearms	Flame Projectors
Finesse	Flux	Acid	Camouflage Gear	Dueling Blades	Hand Crossbows / Darts
Reflex	Motus	Sonic	Clothing / Utility	Dual Knives	Throwing Knives
Vitality	Vita	Necro	Wood & Stone Armor	Staves & Rods	Alchemic Grenades
Fortitude	Nexus	Fire	Unarmored Discipline	Unarmed & Fist Weapons	Flying Strikes
Knowledge	Anuminus	Arcane	Robes / Cloaks	Tech Blades	Thrown Spears
Logic	Ratio	Shock	Chainmail	Chemical Weapons	Nets & Bolas
Awareness	Lux	Radiant	Leather / Hides	Hooks & Axes	Bows

Intuition	Omen	Temporal	Tribal / Spirit Wards	Swinging Weapons	Boomerangs & Chakrams
Charm	Aura	Spirit	Ornate / Showy Attire	Whips & Scepters	Muskets
Willpower	Lex	Psychic	Reinforced Armor	Two-Handed Cleavers	Siege Weapons

3. Derived World Pools & Dual 10-AP Action Economy

Derived Interaction Pools: Health = Reflex + Vitality + Intuition; Composure = Willpower + Charm + Might; Stamina = Endurance + Finesse + Logic; Focus = Knowledge + Awareness + Fortitude; Movement = Reflex + Awareness + Knowledge; Camo = Finesse + Charm + Logic; Hydro = Might + Vitality + Intuition; Thermo = Endurance + Fortitude + Willpower.

Dual 10-AP Action Economy: Characters maintain 2 active pools during combat—**10 Active Stamina** (physical) and **10 Active Focus** (mental/magic/null). Gear/spell loadouts reserve capacity and trigger encumbrance penalties:

Loadout Reserved Capacity	In-Combat Action Pool	Turn Regeneration Rate	Tactical Consequence
< 50% Capacity Reserved	Full 10 Stamina & 10 Focus	100% Rate (+4 AP / turn)	Continuous pressure, swift recovery.
50% – 74.9% Reserved	Full 10 Stamina & 10 Focus	50% Penalty Rate (+2 AP / turn)	High opening impact; requires rest/defend cadence.
≥ 75% Reserved	Halved Pool (5 AP max)	25% Penalty Rate (+1 AP / turn)	Heavy Siege state; strict 1-action rest cycles.

4. The 4 Skill Tracks Per Attribute (48 Total Tracks)

Each of the 12 attributes hosts **4 distinct progression tracks** scaling across 4 ranks (Levels 1–12):

Track Type	Primary Cost	Effect Composition	Rank Scaling Model (Ranks 1–4)
Sparkborn Power Track	Focus-primary	1 Offensive, 1 Defensive, 1 Utility effect (Associated Damage Type).	Rank 1: Unlock base effect / +1 Gear Roll Mod Rank 2: Loadout Cost Reduction Rank 3: Advanced Range/Strength/AoE / +2 Mod Rank 4: Master Threshold Perk / Advantage Negation
Null Discipline Track	Focus-primary	1 Offensive, 1 Defensive, 1 Utility effect (Ontological Void / Inertness).	Rank 1: Unlock base effect / +1 Gear Roll Mod Rank 2: Loadout Cost Reduction Rank 3: Advanced Range/Strength/AoE / +2 Mod Rank 4: Master Threshold Perk / Advantage Negation

Mundane Offense Track	Stamina-primary	1 Weapon Mastery effect (Associated Weapon) + 2 Active Attack Skills.	Rank 1: Unlock base effect / +1 Gear Roll Mod Rank 2: Loadout Cost Reduction Rank 3: Advanced Range/Strength/AoE / +2 Mod Rank 4: Master Threshold Perk / Advantage Negation
Mundane Defense Track	Stamina-primary	1 Armor Mastery effect (Associated Armor) + 2 Active Guard Skills.	Rank 1: Unlock base effect / +1 Gear Roll Mod Rank 2: Loadout Cost Reduction Rank 3: Advanced Range/Strength/AoE / +2 Mod Rank 4: Master Threshold Perk / Advantage Negation

5. Contested Combat Resolution & Clash Mechanics

Contested Roll Check: Attacker Roll = d20 + Stat Mod + Weapon Mod vs. Defender Roll = d20 + Stat Mod + Armor Mod.

• Margin +1 to +2: **Graze** | Margin +3 to +5: **Minor Hit** | Margin +6 to +9: **Major Hit** | Margin +10+: **Critical Hit**.

• On exact tie (Diff 0), a **Clash** triggers! Both combatants select a blind tactic (*Press, Feint, Disengage, Hold*). Tie-breaker choices dictate movement, disarms, stuns, or prone knockdowns.
